Retention Actions (Priority Order)

1. **Reduce month-to-month churn:** drive upgrades to 1–2 year contracts using targeted incentives.
2. **Fix payment friction:** migrate electronic-check customers to autopay (card/bank transfer) with nudges and small rewards.
3. **Stabilize fiber retention:** prioritize service quality + proactive support for fiber customers, especially early tenure.
4. **Win the first 6 months:** strengthen onboarding, first-bill clarity, and early customer success touchpoints.
5. **Target high-risk pockets first:** month-to-month × electronic check and month-to-month × fiber segments.
